EDUCATION

Bachelor of Science in Computer Engineering May '26
Utah Tech University | St George, UT

RELEVANT SKILLS

Software Skills: Python, Arduino, C, C++, Matlab, RISC V Assembly, Git, Linux
Serial Communication Protocols: I2C, UART, SPI, and Extensive CAN experience
Hardware Skills: Analog & Digital Circuit Design & Debugging
Lab Skills: Experience using Digital Multimeters, Oscilloscopes, Soldering, Verilog, LT Spice, and other Simulation Tools
AutoDesk Inventor Certified (CAD Software)
PCB Design Tools (KiCad)
Skills: Computer Engineering / Embedded Software / Embedded Systems / Real-Time Operating Systems / RTOS /
Firmware Development / Embedded Firmware Development / Root-Cause Analysis / Software Development

WORK EXPERIENCE

Electromagnetic NDT Technician (Seasonal) Apr '23 - Present
TesTex | Belle Chasse, LA

- Refined specifications and testing protocols through in-depth analysis and interpretation of data with **Excel**, enhancing overall instrument certification efficiency
- Calibrated and maintained over 100 pieces of sensitive non-destructive testing equipment
- Mitigated critical safety risks by executing **advanced eddy current testing** with cutting-edge NDT technology and data analysis software

Owner & Computer Technician May '20 - Present
Rapid Tech Repair | Gretna, LA

- Resolved complex hardware and software conflicts for 100+ computers, enhancing functionality for **50+ clients** through targeted troubleshooting and repair processes
- Optimized computer and laptop repair methods through **hardware troubleshooting techniques and diagnostic software**, significantly enhancing device performance

IT Help Desk Aug '25 - May '26
Utah Tech University | St. George, UT

- Facilitated team communication through meetings and email, driving a **40% improvement in turnaround time** and increasing overall project output
- Managed user permissions and account data through the use of a university-wide database

Geek Squad Consultation Agent Apr '22 - Aug '22
Best Buy | Gretna, LA

- Executed comprehensive hardware and software repairs on various consumer electronics, leveraging **iOS and Android diagnostics** to elevate customer satisfaction scores
- Elevated system performance by executing hardware replacements and operating system repairs on various computer models, utilizing **Windows OS troubleshooting and Mac hardware expertise**
- Coordinated a small team to ensure **equal workload distribution** and elevate customer satisfaction through conflict resolution techniques

ADDITIONAL INFORMATION

- TIME Magazine's person of the year in 2006
- Native Proficiency in Spanish
- Won the Hardware category of the USU Hackathon 2023
- Founder of Electronics Foundation Student Chapter | 1 of 6 students nationally to be in the Emerging Engineer Program
